The criminal docket is on.

To-morrow is election day.

November was ushered in by a perfect day.

Court house square presented a busy scene this morning.

The trees around Roswell are putting on their most gorgeous foliage.

Wednesday's RECORD will contain the full and complete election returns.

Interest centers in the New York election. Will it be Low or McClellan?

Roosevelt is going home to vote. Residents of a territory are saved this trouble.

Under the new time table THE RECORD will be delivered down the valley with the same promptness as heretofore.

Study the new time table, so you will not be left. Remember there is no train going south Sunday afternoon nor one from the south Monday morning.

New Mexico's Future.

The possibility of future growth and increase of population on the part of New Mexico is often questioned, says the New Mexican. Yet, in one industry alone, that of agriculture, New Mexico scarcely has made a beginning. The area under cultivation in New Mexico is but 250,000 acres, supporting about 125,000 people. In India 6,000,000 acres are irrigated with water raised by pumps alone and those 6,000,000 acres support 8,000,000 people. From the Nile alone, in Egypt 5,000,000 acres are irrigated and cultivated, supporting over 5,000,000 people. New Mexico can and will do in the future what India is doing to raise water by means of pumps; the Territory's rivers carry more water than the Nile and those waters will ultimately be used as those of the Nile are utilized. In one decade, 1900, New Mexico increased its agricultural production five times, from \$2,000,000 to \$10,000,000, according to the census reports. If anything, we have underestimated the wealth and population of this Territory. What is said of the progress of agriculture in New Mexico, can be said of other industries such as mining and manufacturing. One need not be an optimist nor a prophet with a far vision, to recognize that New Mexico's growth in population and wealth is not only assured, but will be so rapid within the next few decades as to astonish the world.

Did Not Find His Brother.

R. E. Morris of Yuma, Arizona, stopped off here Saturday morning to visit his brother but found he had left here some weeks ago for parts unknown. Mr. Morris left on the evening train for his home and was very much disappointed that he did not find his brother here.

M. V. Sharp of Artesia, has bought out Mr. Majors' interest in the blacksmith firm of Robb & Majors and will bring his family here tomorrow where they will make their future home.

William Jones of Amarillo, is in the city.

J. D. Thyng of Boston, is at the Grand Central.

Joe Addington of Portales, is registered at the Shelby.

Mrs. C. A. Wooldridge and two children of Baird, Texas, have joined Mr. Wooldridge here and they will spend the winter in Roswell.

The news man on the Saturday afternoon's train said it rained constantly from 8:30 Friday morning at Kansas City until they reached Amarillo.

NEW MEXICO

Has a Grand Exhibit and Shows What Irrigation Will Do.

San Antonio Light.

Among the exhibits at the fair is that of New Mexico which is receiving the marked attention that it deserves. This exhibit was sent out by the Chamber of Commerce, Roswell, N. M., and is under the efficient charge of Mr. A. E. Page, assisted by Mr. J. T. Reese. It shows apples of fine size and flavor, peaches, pears, plums, tomatoes, prunes, figs, asparagus celery and cauliflower, equally good in size and quality. There are also fine specimens of alfalfa, of which five and six crops can be made each year. Kaffir corn, the ordinary maize and many good things.

All these fruits and vegetables are grown in the Pecos valley and maintained by irrigation. The valley is irrigated by the springs, rivers and by innumerable artesian wells which are easily gained, water being secured at a depth of from 175 to 300 feet.

The valley will grow anything outside tropical plants, but the main attention is given to fruits and the finer kind of vegetables. These with ordinary care, ripen soon and, getting into the market early, secure the top prices.

The exhibit has a two-fold purpose. It is a fine inducement for emigration to the Pecos Valley and at the same time it shows to us the great advantage of irrigation.

HALLOWEEN PARTY.

Misses Ethel and Jean Hamilton Entertain at Their Home.

Misses Ethel and Jean Hamilton, daughters of Mrs. William Hamilton, gave a Halloween party Saturday evening at their home corner of North Spring River avenue and Second street. The guests began to arrive about 7:30 and stayed until the midnight hour. The Mexican orchestra furnished sweet music in the hallway. Games of different kinds and dancing were indulged in. The dining room was beautifully decorated in yellow. Yellow ribbons were hung gracefully from the ceiling to represent a May-pole. The table was round and at each plate there was a yellow, imported Jack-o'-lantern as souvenirs of the occasion. The dim lights from the numerous candles added very much to the effectiveness of the scene. There were English walnuts with yellow ribbons around them and each contained a rhyme of fortune for weal or woe. There was also in the walnuts a button, thimble, penny and heart. The one that secured the button would be an old bachelor, thimble an old maid, penny a rich man and heart married within a year. Following is the menu:

Chicken Salad, Sandwiches, Tutti Frutti Ice Cream, Cake, Coffee, Imported Candy, Nuts, Home Made Taffy, Fruits and Cider.

Those present were: Messrs. Chas. Wilson, J. H. Beckam, Warren, Atkinson, McGaffey, Smith, Tidwell, Taylor, Randolph, Fort, Cahoon, Capt. Loring; Misses Patterson, Fort, Jean Hamilton, Ethel Hamilton; Mesdames Chas. Wilson, J. H. Beckam, W. G. Hamilton, McIntyre, McDonald.

TO RENT:—A nice east room for two gentlemen. Apply at 608 South Main.

Cold storage market is still having a nice run on New England sausage.

SUSPECTED TRAIN ROBBER

John Duffy, a Tramp Held in Pueblo by the Police as a Suspect.

Pueblo, Colo., Oct. 31.—John Duffy, tramp suspected of being a train robber, was held here in police court today on a bond of \$200. All circumstances of the wreck on the Santa Fe by the collapse of the bridge over Capischa Creek point to the work of miscreants. There was supposed to have been a quantity of refined bullion in transit and the method taken by the robbers was to remove a rail on the bridge or place a small iron obstruction on it. Several strangers appeared on the scene after the wreck. The police have received word to arrest a man carrying three pairs of pants. This resulted in the apprehension of two tramps, who after a sharp fight were captured. One of these in the struggle threw away a package which later was found to contain three pairs of pants.

ON THE WAR PATH.

Three Hundred Indians Have Left Their Reservation, and Trouble is Expected.

Denver, Colo., Oct. 31.—Reports received at the state house today are to the effect that three hundred Indians are preparing to go on the war path twenty-two miles south of Rangely, Colorado. The Indians are from a reservation in Utah. Camp Commissioner Woodward who was at Meeker has gone to the camp of the Indians. Governor Peabody is awaiting farther details, and will send two companies of national guard to drive the red-skins from the state if found necessary. State officials have notified the department of the Interior and also state authorities of Utah that the Indians have left their reservation, and it is expected that some action will be taken to have them returned.

SHORT IN HIS ACCOUNTS.

James L. Johnson of the Whisky Trust Short \$20,000.

St. Paul, Minn., Oct. 31.—James L. Johnson, local agent of H. H. Shufel & Co., the so-called Whisky trust, was arrested today on a warrant sworn out by representatives of the firm who allege that he is close to \$20,000 short in his accounts.

An Attempt Made to Hold Up a C. & N. W. Passenger Train.

Chicago, Ill., Oct. 31.—An effort was made last night to hold up the east bound passenger train of the Chicago & Northwestern Railroad. The effort was ineffectual on account of the poor marksmanship of one of the bandits. The fireman, Louis E. Ernest was shot and one bullet grazed the engineer, Harry Ebbets. Today five dynamite bombs were found near the scene of the shooting. There is no clue yet as to the identity of the men who did the shooting. It is believed that they were riding on the tank or the platform of the first coach. They made their escape in the darkness. Although the fireman is badly wounded, it is believed that his life can be saved, as the watch he had in his pocket deflected the bullet.
